DEPARTMENT OF ORAL PATHOLOGY

LEARNING ENVIRONMENTAL FACILITIES

STUDENT CENTRIC TEACHING METHOD USED FOR ENHANCING LEARNING EXPERIENCES	METHODS FOLLOWED
1. Experiential learning	Pre-clinical activities like diagnosis & interpretation of infectious diseases
2. Integrated/interdisciplinary learning	Interdepartmental meets, Conferences
3. Participatory learning	Group discussions, quiz, Case discussions
4. Problem Solving Methodologies	Case discussions
5. Self-Directed Learning	Seminars
6. Patient Centric, Evidence-Based Learning	Clinical samples from patients for diagnosis and identification of pathogens
7. Learning In Humanities	Patient sample collection for Covid care centres, Vaccination drive, phlebotomy
8. Project-Based Learning	Research publications, articles and poster presentation, Assignments, Dissertations

The departments implement the above mentioned learning methods through various clinical skill models. Students engage in self-directed, participatory, and project-based learning through activities such as seminars, journal clubs, dissertations, research articles, conferences, and interdepartmental discussions. The pre-clinical diagnoses performed help to improve their ability to identify pathogens and treat patients with greater confidence. Additionally, students conduct awareness programs and develop their soft skills by participating in various camps.

DEPARTMENT OF ORAL PATHOLOGY

LEARNING ENVIRONMENTAL FACILITIES

STUDENT CENTRIC TEACHING METHOD USED FOR ENHANCING LEARNING EXPERIENCES	METHODS FOLLOWED
1.Experiential Learning	Tooth carving on wax block
2.Integrated/Interdisciplinary Learning	Interdepartmental seminars with Department of Oral surgery, Oral medicine, Periodontics etc
3. Participatory Learning	Group discussions
4.Problem Solving Methodologies	interdepartmental case presentations etc
5.Self-Directed Learning	UG seminars
6.Learning In Humanities	Outreach camps etc
7. Project-Based Learning	UG/PG conferences, poster presentation

Dental wax carving exercises are a practical component designed to teach tooth morphology and develop the psychomotor skills necessary for clinical dentistry. This exercise is an essential part of the preclinical dental curriculum, helping students integrate cognitive and psychomotor skills with a solid understanding of tooth morphology. This foundation is crucial for diagnosing and managing dental disorders related to tooth development, such as taurodontism, dens in dente, peg laterals, gemination, fusion, supernumerary roots, or mispositioning. Students are assigned seminar topics to deepen their understanding of these issues. They are also encouraged to participate in UG conferences, presenting papers and posters to engage with current research in the field. Additionally, in collaboration with the Oral Pathology Society, the department organizes camps to raise awareness about oral cancer, offering students practical exposure alongside theoretical knowledge.

		PG- The PG students present seminars and journalclubs regularly according to the OCI curriculum.
6	Learning in humanities	The UG and PG students go for outreach programs for the welfare of general population and special groups where they understand the needs of the population and address them.
7	Project based learning	The PG students attend conferences and COE programs regularly. The UG students are taught how to plan research programs and develop questionnaires for different survey topics. They also learn how to organise camps in their internship. They participate in competitions during World No Tobacco day.

The department incorporates all the mentioned learning methods, training students in self-directed, participatory, and project-based learning through seminars, journal clubs, dissertations, conferences, COE programs, and interdepartmental discussions. Students also organize awareness programs and improve their clinical skills by participating in various camps and outreach initiatives. Both undergraduate and postgraduate students are posted at satellite centers, where they enhance their communication and clinical skills. They are responsible for receiving patients, planning treatments, and persuading patients to undergo treatment, which helps them become self-sufficient in establishing their private practices. Interns communicate with patients referred from satellite centers, managing their treatment and follow-up throughout the process.

DEPARTMENT OF PUBLIC HEALTH DENTISTRY

LEARNING ENVIRONMENTAL FACILITIES

SI No	Student Centric Teaching Method Used for Enhancing Learning Experiences	METHODS FOLLOWED
1	Experiential Learning	Clinical Skills: UG (4th BDS)- The students are given demonstration of application of pit and fissure sealants and topical fluoride application before they carry out the procedures on patients. PFS application is done on extracted teeth before carrying out on patients. UG (Interns)- The interns perform simple extractions, restorations and scaling procedures in the department, outreach programs and satellite centres. The patients referred from satellite centres are treated in the department to enhance the clinical skills of the interns and PG students. PG- The PG students perform extractions, restorations, scaling and RCT procedures in satellite centres and the department. The PG students are enrolled in implant workshops.
2	Integrated/ Interdisciplinary learning	The PG students have interdepartmental seminars with Department of Orthodontics, Periodontics and Oral Medicine to enlighten them about different aspects on the particular topics. The PG students from both the departments given presentations on the chosen topics. The students also attend interdisciplinary CDE programs.
3	Participatory learning	UG- Discussions are taken for 4 th BOS students on topics related to practicals and theory. Group discussions and one on one discussions for slow and fast learners are done. PG- Discussions on topics related to practicals and theory are held for PG students.
4	Problem solving methodologies	The PG students are given problem solving exercises/ scenarios to draw planning protocol on how to solve the problems given in the scenarios and utilization of resources.
5	Self directed learning	UG- Third BOS students present seminars on different topics and they are also taught about research.

DEPARTMENT OF ORTHODONTICS AND DENTOFACIAL ORTHOPEDICS

LEARNING ENVIRONMENTAL FACILITIES

STUDENT CENTRIC TEACHING METHOD USED FOR ENHANCING LEARNING EXPERIENCES	METHODS FOLLOWED
1. Experiential learning	Preclinical wire bending exercises, Typhodont exercises, cephalometric tracing
2. Integrated/interdisciplinary learning	Interdepartmental discussions
3. Participatory learning	Case Discussions
4. Problem Solving Methodologies	Case history discussions, interdepartmental case presentations, mechanics application on models
5. Self-Directed Learning	Seminar and journal clubs
6. Patient Centric, Evidence-Based Learning	TMJ examination, bonding and treatment, treatment of various malocclusions, retention
7. Learning In Humanities	Screening camps
8. Project-Based Learning	PG conferences, poster and paper presentation

The Department of Orthodontics and Dentofacial Orthopaedics has been dedicated to providing excellent facilities for both undergraduate and postgraduate students since its inception. Various initiatives are implemented to enhance student learning and skill development. A spacious seminar hall is available for presentations, case discussions, and journal clubs. A dedicated tracing area for cephalometric patient tracing and a photography room for pre- and post-treatment monitoring are provided. Separate UG and PG laboratories offer ample space for clinical practice. Educational boards are placed throughout the sections to stimulate learning, and scientific article discussions are held regularly. Interdepartmental case and topic discussions further benefit students. Typhodonts and tooth models are provided to practice bonding techniques and treatment mechanics, while autoclaves, dry and wet labs are also available. The department organizes regular screening camps and awareness programs. Students are encouraged to present papers and posters at national conferences and PG conventions, as well as to engage in research activities sponsored by RGUHS, ICMR, etc., with guidance for publishing their findings

DEPARTMENT OF PEDODONTICS AND PREVENTIVE DENTISTRY

LEARNING ENVIRONMENTAL FACILITIES

STUDENT CENTRIC TEACHING METHOD USED FOR ENHANCING LEARNING EXPERIENCES	METHODS FOLLOWED
1. Experiential learning	Preclinical - carving, typhodont exercises, cavity preparation on extracted tooth and soft skills
2. Integrated/interdisciplinary learning	Interdepartmental seminars
3. Participatory learning	Discussions and debates
4. Problem Solving Methodologies	Case history, interdepartmental case presentations
5. Self-Directed Learning	Seminars
6. Patient Centric, Evidence-Based Learning	Local anaesthesia Demonstration TMJ examination, Suturing techniques, Cavity preparation and pulp therapy on extracted
7. Learning in Humanities	Outreach programmes/ camps
8. Project-Based Learning	UG conferences, poster and teaser presentation
10. Role Play	Skits and short films

The Department of Pedodontics offers a student-centered learning environment, where students present seminars, develop skills, and engage in self-directed learning. Using a "tell and show" approach, instructors teach concepts and demonstrate study models to enhance understanding, also promoting peer learning. The department organizes camps and health education programs for hands-on training. Equipped with 16 dental chairs and an X-ray unit, students gain practical experience in clinical patient management. Audio-visual aids are available for patient education. Regular assignments, tests, and quizzes help track student progress.

DEPARTMENT OF PERIODONTICS

LEARNING ENVIRONMENTAL FACILITIES

STUDENT CENTRIC TEACHING METHOD USED FOR ENHANCING LEARNING EXPERIENCES	METHODS FOLLOWED
1. Experiential learning	Preclinical exercises - performing scaling procedures on stone cast and typhodont. Preclinical suturing practice on suturing pillows and typhodont teeth. Performing scaling and root planning on patients
2. Integrated/Interdisciplinary Learning	Interdepartmental seminars, Conferences, COE programs, workshops, professional enrichment programs.
3. Participatory Learning	Group discussions, quiz, Case discussions
4. Problem Solving Methodologies	Providing case scenarios to arrive at diagnosis and treatment plan through Case discussions and chairside viva
5. Self-Directed Learning	Seminars for UGs and PGs Journal clubs and special case presentations
6. Patient Centric, Evidence-Based Learning	Demonstrations of Scaling and root planing on patients and other soft tissue surgical procedures. Demonstration of usage of LASER and microsurgical loupes
7. Learning In Humanities	Camps, Community service, Posting in Covid care centres, Vaccination drive
8. Project-Based Learning	PG conferences, Paper and poster presentation, Assignments, Dissertations and short study

The department incorporates all the above learning methods through various clinical skill models. Students gain self-directed and project-based learning through seminars, journal clubs, dissertations, conferences, COE programs, and interdepartmental discussions. Preclinical procedures enhance students' experience, helping them treat patients with greater confidence. Additionally, students engage in outreach programs and further develop their soft and clinical skills by participating in various camps.

DEPARTMENT OF PROSTHODONTICS

LEARNING ENVIRONMENTAL FACILITIES

STUDENT CENTRIC TEACHING METHOD USED FOR ENHANCING LEARNING EXPERIENCES	METHODS FOLLOWED
1. Experiential learning	Pre-clinical - Teeth Arrangement and tooth preparation on typodonts
2. Integrated/interdisciplinary learning	Interdepartmental seminars, conferences, COE program
3. Participatory learning	Group discussion, Case Discussions
4. Problem Solving Methodologies	Case discussions, interdepartmental case presentations
5. Self-Directed Learning	Seminars, journal clubs
6. Patient Centric, Evidence-Based Learning	Demonstration of all prosthetic replacement procedures on patients and knowledge and skills to use instruments and equipment's.
7. Learning In Humanities	Denture camps, old age homes, geriatric care
8. Project-Based Learning	PG conferences, paper and poster presentation, UG research projects

The department implements all of the above learning methods through various clinical skill models. Students engage in self-directed, participatory, and project-based learning through seminars, journal clubs, dissertations, conferences, COE programs, and interdepartmental discussions. The pre-clinical procedures they perform help build their confidence in treating patients. Additionally, students organize awareness programs and enhance both their soft and clinical skills by participating in denture camps. The department also conducts outreach initiatives, including visits to old age homes, free denture camps, and regular school visits for prosthetic dental treatments.

DEPARTMENT OF CONSERVATIVE AND ENDODONTICS

LEARNING ENVIRONMENTAL FACILITIES

STUDENT CENTRIC TEACHING METHOD USED FOR ENHANCING LEARNING EXPERIENCES	METHODS FOLLOWED
1. Experiential learning	Pre-clinical cavity preparation and restorations on Typhodonts and natural teeth
2. Integrated/interdisciplinary learning	Interdepartmental meets, Conferences, COE programs
3. Participatory learning	Group discussions, quiz, Case discussions
4. Problem Solving Methodologies	Case discussions
5. Self-Directed Learning	Seminars, Journal clubs
6. Patient Centric, Evidence-Based Learning	Demonstrations of restorative dentistry and endodontic procedures on patients and equipment demonstrations
7. learning in Humanities	Camps, Community service, Posting in Covid care centres, Vaccination drive
8. Project-Based Learning	PG conferences, Paper and poster presentation, Assignments, Dissertations

The department incorporates all the above mentioned learning methods through various clinical skill models. Students engage in self-directed, participatory, and project-based learning via seminars, journal clubs, dissertations, conferences, COE programs, and interdepartmental discussions. The pre-clinical procedures they perform help build their confidence in treating patients. Additionally, students organize awareness programs and develop both their soft and clinical skills by participating in various camps.

DEPARTMENT OF ORAL AND MAXILLOFACIAL SURGERY

LEARNING ENVIRONMENTAL FACILITIES

STUDENT CENTRIC TEACHING METHOD USED FOR ENHANCING LEARNING EXPERIENCES	METHODS FOLLOWED
1.Experiential learning	Extraction, local anaesthesia blocks, suturing techniques, interdental wiring
2.Integrated/interdisciplinary learning	Interdepartmental discussions, interdepartmental case presentations and seminars
3. Participatory learning	Case Discussions, group discussions.
4.Problem Solving Methodologies	Case history discussions, interdepartmental case presentations
5.Self-Directed Learning	Seminar and journal clubs, research work
6.Patient Centric, Evidence-Based Learning	TMJ examination, lymph node examination, case history evaluation, Extraction, local anaesthesia blocks, suturing, interdental wiring, infection control – painting and draping
7.Learning in Humanities	Screening camps
8. Project-Based Learning	PG conferences, poster and paper presentation

The Department of Oral and Maxillofacial Surgery is well-equipped with all necessary instruments for both undergraduate and postgraduate learning. It features a spacious seminar hall for presentations, case discussions, journal clubs, and interdepartmental meetings. The department also includes separate UG and PG clinic areas, a minor operating theater, and an implantology clinic for minor surgeries. Educational boards are placed throughout the sections to encourage learning, and research article discussions enhance student knowledge. A dedicated sterilization room ensures infection control. Students are encouraged to present at national conferences, participate in research, and publish scientific articles.
