The Secretary
Dayananda Sagar Institutions

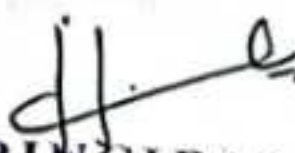

Respected Sir,

Sub: Regarding Release of Intramural fund.

With reference to the above, I wish to bring to your kind notice that, the following faculty have submitted synopses for approval and sanctioning of intramural fund.

Sl- No.	Faculty name	Title	Implications of Research outcome	Proposed amount in Rupees
1.	Dr. Archana R Naik (Principal Investigator) Dr. Koduru Sravani (Co-Investigator)	Comparative evaluation of efficacy of lactoferrin containing dentifrice with that of zinc citrate dentifrice in clinical management of gingivitis: A randomized controlled clinical trial.	Lactoferrin containing toothpaste is the first of its kind introduced in India. As it is a natural compound present in saliva, it might have better therapeutic benefits.	23,000/-
2.	Dr. Smitha Sharan (Principal Investigator) Dr. Sreeharsha (Co-Investigator)	Comparative evaluation of trueness and precision of five intraoral scanners in the full arch digital implant impression in reproducing multiple implant position with scan bodies: An invitro study.	Interest in digital scanners has increased dramatically in the market since its introduction in 1980's with Computer aided design and manufacturing (CAD/CAM). During the near future, intraoral digital scanners could be considered a replacement for traditional alginate and polyvinyl siloxane impressions. Such a change in the method of obtaining impressions would represent a paradigm shift in the field of prosthesis fabrication where single visit restorations with good quality, comfort and fit are possible due to high accuracy of impression. Saves money on Impression material cost. The results stemming from this research can be applied to market place and to a wider society and can form an intrinsic part of the technologically developed innovative practice guideline for clinicians.	1,50,000/-

3.	Dr. Koduru Sravani (Principal Investigator) Dr. Archana R Naik (Co-Investigator)	Comparative evaluation of efficacy of lactoferrin-multivitamin combination dentrifice with triclosan-zinc citrate dentrifice on women population in the clinical management of gingivitis : A randomized comparative open label parallel concurrent study.	This study aids in better therapeutic benefits for women population to prevent gingivitis	22,000/-
Total				1,95,000/-

Note: The above research proposal of faculty for Rs. 1,95,000/- (Rupees One Lakh Ninety Five Thousand Only) are recommended for approval.
